WAAFT stands for: We Agnostics, Atheists and Freethinkers.

WAAFT Central provides an international service network and a central location for sharing resources to support agnostics, atheists, and freethinkers in AA and makes AA, as a whole, more inclusive.

We hope to eliminate the cultural bias against nonbelievers/freethinkers that sometimes exists in AA, and we feel that through sharing our experience, strength, and hope as nonbelievers/freethinkers, we will help widen the gateway to recovery for all, making AA even more accessible and welcoming to a greater number of people.
